

# 26 Ways to use Silver Shield

## Conditions helped by using Silver Shield:

- Asthma
- Bronchitis and upper respiratory infections
- Burns
- Cold sores
- Colds and sinus infection
- Diaper rash
- Diarrhoea
- Disease prevention
- Ear infections
- Eye infections
- Flu
- Food poisoning
- Fungal foot infection
- General well-being
- Gum disease and tooth decay
- Hepatitis
- Insect bites
- Laryngitis
- Malaria
- Mastitis
- Mold allergies
- Joint inflammation
- Skin infections
- Sore throat
- Stomach upset
- Sunburn
- Thrush
- Tonsillitis
- Urinary tract infections (UTIs)
- Vaginal yeast infection
- Wound

## 11 Reasons to use Silver Shield:

- 1) Broad-spectrum antimicrobial
- 2) Immune enhancer
- 3) Potent anti-inflammatory
- 4) Cost effective
- 5) Non-toxic, passes through the body unchanged.
- 6) Works synergistically with prescribed antibiotics
- 7) Safe for all individuals.
- 8) Internal and topical usage.
- 9) Doesn't encourage resistant microbial strains
- 10) As effective as traditional antibiotics and other drugs.
- 11) Has prophylactic potential in disease prevention.

## HOW TO USE SILVER SHIELD 26 WAYS:

CONDITION		2-3 drops	2-3 sprays	1-2 fine mist/gel	1-3 tsp	1 x day	2-3 x day	as needed	NOTES
<b>INTERNAL USE</b>	Daily disinfectant				X		X		For special circumstances, serving can be doubled.
	Impetigo, scarlet fever, enteric fever				X			X	Take every hour until fever subsides.
	Malaria				X		X	X	1 oz a day in divided doses for 5 days.
	Pneumonia, meningitis, toxic shock syndrome, plague				X		X		
	Food poisoning				X			X	Can take hourly as needed.
	Diarrhea, flu				X			X	Take hourly until symptoms subside.
	Urinary infections				X			X	Can take hourly as needed.
	Hepatitis				X		X		

CONDITION		2-3 drops	2-3 sprays	1-2 fine mist/gel	1-3 tsp	1 x day	2-3 x day	as needed	NOTES
<b>ORIFICE USE</b>	Voice spray		X	X			X	X	Use spray bottle 1-4 sprays, up to 10 times daily.
	Mouthwash, dental plaque/decay, throat infection				X		X		Gargle for six minutes to expose pathogens for sufficient time to kill bacteria, then spit out or swallow.
	Ear infections	X					X		Keep ear pointed upwards for 10 minutes to allow silver access into ear cavity (make sure ear canal is full).
	Eye infection	X					X		Keep liquid in eyes for up to 6 minutes for optimal exposure.
	Nasal spray			X			X	X	Use atomizer sprayer 1-10x daily.
	Sore/strep throat				X			X	Gargle for 6 minutes (swallow solution if you want); use every 2 hours for strep; twice daily thereafter.
	Tooth/jaw infection				X		X	X	Use up to 3 months depending on severity of infection.

CONDITION		2-3 drops	2-3 sprays	1-2 fine mist/gel	1-3 tsp	1 x day	2-3 x day	as needed	NOTES
EXTERNAL USE	Vaginal infection			X	X	X			Use gel on external vaginal area; use atomizer to administer liquid in vagina.
	Wounds, burns			X			X	X	Cover wound as needed with spray or gel. Drink also.
	Skin acne, rash, ringworm, skin infection		X	X				X	Use up to 6 times daily.
	Foot/toe fungus		X	X					Can wash/soak entire foot daily. For fungus under toenail, lightly sand nail, then soak cotton ball and wrap with tape so silver is in constant contact; apply for 30 minutes.
	Antibacterial hand gel			X					Use full strength; works up to 4 hours.
	Diaper rash		X	X					Spray or rub gel on area.
	Face wash			X			X		Can use daily.

CONDITION		2-3 drops	2-3 sprays	1-2 fine mist/gel	1-3 tsp	1 x day	2-3 x day	as needed	NOTES
HOUSEHOLD USE	Disinfect counters/cutting board.			X	X	X			Allow 10 minutes of exposure before wiping excess, or let air dry.
	Disinfect bathroom basin, counter, shower/tub.			X			X	X	Spray directly on surface, or thoroughly moisten cleaning cloth and wipe surfaces; allow 10 minutes exposure, or air dry.
	Disinfect toothbrushes.		X	X				X	Allow item to stand in full-strength liquid for 10 minutes. No need to rinse.
	Disinfect laundry.		X	X					Soak in liquid, or spray over clothing; allow 10 minutes of exposure and then let air dry.

**CONTANT TO ORDER SILVER SHIELD GEL OR SILVER SHIELD LIQUID:**

## 7 Reasons to feel reassured with using Silver Shield:

### 1) **PATENTED NEW TECHNOLOGY** - Patent# 7135195

A patent approved in 2006 supports hundreds of antibacterial, antiviral and antifungal claims, and demonstrates the new silver technology as unique and superior to the colloidal and ionic silvers of the past. This new technology has made Silver Shield extremely effective in very small amounts, while remaining extremely safe even when used in large amounts.

### 2) **SCIENTIFICALLY SUPPORTED**

160 lab reports and research studies have documented the benefits of using Silver Shield. In fact, scientists have found that the new Silver Shield solution can destroy 99.9% of all bacteria, viruses, molds, fungi and other pathogens that it has been tested on within minutes of exposure. These include Malaria, common cold and flu viruses, numerous molds, Methicillin-resistant Staph (MRSA), Salmonella, E. Coli, and Streptococcus, among many others.

### 3) **SUPER-FLEXIBLE**

The new silver solution boasts multi-faceted applications. It can be used inside the body (internal), as well as on the skin and in the orifices (external). Silver Shield can also be used as a tremendously effective household disinfectant, much like bleach or other cleaners – only it's much safer!!

### 4) **QUICK KILL TIME**

Many medications dealing with conditions such as skin fungus or other infections can take weeks to work. The new silver solution, however, can be effective in just a few minutes. The new silver begins to destroy pathogens in seconds, and completely destroys them when in direct contact for 2-10 minutes.

### 5) **INEXPENSIVE**

When you add up the cost of doctor visits (and time to see the doctor), prescription medications, and other factors involving “conventional” health care, silver has a tremendous value. It is available without a prescription, and can be used with utmost confidence.

## 6) EMERGENCY PREPAREDNESS

Because silver solution is inorganic with no chemicals or other additives, it can store for years at a time. Several agencies and organizations have recommended stockpiling Silver Shield as a potential agent in the fight against bioterrorism. In addition, Silver Shield can purify water in as little as 4 minutes.

## 7) EXTREMELY SAFE

Research, testing and long-term use show that silver solution is completely safe for everyone, including children, pregnant women and the elderly. Experts estimate that one would need to consume about half a bottle of silver solution daily over a period of several years before even measurable amounts of silver would begin to accumulate in the body. There have been no reported complaints involving silver solution, and no negative side effects such as those witnessed with most prescription drugs.

## Dr. Gordon Pedersen – the formulator of Silver Shield:

Dr. Gordon Pedersen graduated with a Ph.D. from the Toxicology Program at Utah State University.

He has a Master's degree in Cardiac Rehabilitation and Wellness. He now serves as the director of the institute of Alternative Medicine and was nominated to chair the United States Pharmacopoeia Review Board Natural Products Committee.

Dr. Pedersen is the formulator of more than 150 nutritional products. He is an international best-selling author and is the host of the radio show "Common Sense Medicine".

New silver technology has shown to be effective in either inhibiting or killing the following pathogens:

<b>PATHOGEN</b>	<b>DISEASE/CONDITION CAUSED BY PATHOGEN</b>	<b>EFFECTIVE CONCENTRATION</b>
Staphylococcus Aureus	infections of the bowel, eye and skin, pneumonia, inflammation, post-operative infections, food poisoning, meningitis, toxic shock syndrome	2.5 – 5.0 ppm
Salmonella typhimurium & Arizona	food poisoning, enteric fever	2.5 – 5.0 ppm
Escherichia coli	food poisoning, urinary tract infections, respiratory tract infection, diarrhoea, topical/flesh infection	2.5 – 5.0 ppm
Haemophiles influenza	infections of ear, sinus and throat, pneumonia, meningitis	1.25 ppm
Shigella boydii	severe food poisoning	1.25 – 2.5 ppm
Pseudomonas aeruginosa	burn and wound infections, meningitis, pneumonia, urinary tract infection	2.5 – 5.0 ppm
Streptococcus pneumonia	pneumonia, meningitis, infection of throat, sinus and ear	2.5 – 5.0 ppm
Streptococcus pyrogenes	“Strep throat”, impetigo, scarlet fever	1.25 ppm
Streptococcus mutans	Tooth decay and plaque	5 ppm
Enterobacter aerogenes	Infection of urinary tract, flesh wounds, meningitis	2.5 ppm
Klebsiella pneumonia	Respiratory tract infection, pneumonia, urinary tract infections, meningitis	2.5 ppm

**NOTE:** ppm = parts per million

### What are the benefits of the Silver Solution?

The problem with earlier versions of silver is that often high amounts of silver were needed to be effective, which could possibly lead to toxic levels of silver building in the body.

However, today’s revolutionary form of the silver solution can be effective against literally dozens of pathogens without the fear of toxicity. Numerous lab reports and research studies have documented the benefits of using silver. In fact, a recent report from the Microbiology Department at Brigham Young University found that a nano-particle silver solution was effective in destroying over a dozen of today’s most dangerous bacteria, including Salmonella, E.coli, Pseudomonas aeruginosa and Streptococcus pneumonia.

## How does Silver work?

The answer to this question is three fold. First, the silver oxide coating of the nano-particle kills bacteria by pulling away one of the electrons on the bacteria cell membrane, which contributes to the rupture of the membrane and ultimately the death of the bacteria cell.

Second, the new silver works by its electromagnetic charge. Virus DNA has incomplete segments of DNA that have abnormal electrical charges. The silver nano particle is magnetically attracted to the virus and over-powers its DNA by causing it to bind into a tight ball. In essence, this renders the virus impotent and unable to replicate.

Finally, the new silver solution is destructive towards bacteria and viruses through its magnetic resonance. Dr. Rustom Roy of Penn State University has found the new silver to resonate at between 890-910 tetra hertz, which is the exact frequency that most labs use to protect from the potential of bacterial and viral infestation.

## Is Silver Safe?

The simple answer to this is “yes”. As discussed, older “colloidal” silver products did pose some measure of threat if used in large quantities for extended periods. However, the new nano-particle-based silver solutions are extremely safe. In fact, the United States government’s director of Integrative Center for Homeland Security, Dr. P.K. Carlton, has recommended the use of the new silver solution as a safe resource in the area of bioterrorism. Dr. Carlton has called silver “non-toxic to humans” and “EPA approved”.

Other data show that the new silver passes through the body unmetabolized, meaning that it does not produce toxic metabolites that can contribute to various health conditions. Other research shows that between 90 and 99 percent of ingested new silver products are excreted by the next day, and that it would take approximately 258 years of regular ingestion of the new silver solution for it to accumulate in the body to toxic levels; and that’s only if NONE ever left your body.

Finally, nano-particle silver is approved by the EPA and other government agencies, and has been approved as a safe disinfectant of drinking water by various government agencies.
